

Please do not allow the use of cell phones on airplanes during flight. Cell phones no matter how useful have become a nuisance to many of us who do not wish to hear the conversations of others especially in small, cramped spaces like we endure when we travel on airplanes. I find most cell phone users do not take into consideration the fact that they are annoying others. As a matter of fact these annoying cell phone users don't really care if they bother people who have to be near them in airports, restaurants and many public places. I hope common sense will prevail in your decision making. Thank you very much. Linda D. Smith
